Family Educational Rights and Privacy Act

Salisbury State University will assume the right, under the provisions of the Family Educational Rights and Privacy Act, to provide student directory information without prior consent of the student. Directory information is defined as a student's name, local address (if listed), date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of an athletic team member, dates of attendance, degrees and awards received, most recent previous educational agency or institution attended and listing of officers of student organizations (including names and addresses).

In the event a student wants more than directory information released, please notify the Dean of Students Office, Guerrieri University Center.

Notice To Students

The Graduate Catalogue is an information guide and is not a contract. The University reserves the right to change requirements for degrees, fees, prerequisites, scheduling, grading systems and related matters. All such changes are implemented in such a manner that any new requirements will work no hardship on a student who had previously been admitted to a degree program under another set of requirements.

The policies cited in the Graduate Catalogue are only a partial listing of the regulations affecting all Salisbury State University students; unless specifically limited to undergraduate students, all the regulations and policies cited in the current *Salisbury State University Catalogue* apply to graduate students as well.

Salisbury State University Equal Opportunity Policy

Salisbury State University provides equal employment and educational opportunities without regard to race, color, religion, national origin, sex, age, marital status or handicap as required by Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973 and other equal opportunity regulations. The University makes all decisions regarding employment including recruitment, hiring, promotion and all other terms and conditions of employment without discrimination. Inquiries should be directed to Affirmative Action Officer, Salisbury State University, Holloway Hall, Camden Avenue, Salisbury, Maryland 21801-6837. Telephone (301) (410) 543-6025.

Sexual Harassment Policy

Commensurate with its mission as an academic institution of high quality, Salisbury State University encourages an atmosphere of physical, psychological and social well-being which offers all members of the University community an environment that provides opportunities to work, learn and develop with the human dignity that caring persons bestow on one another. There is no place in such an environment for intimidation or harassment of any kind, and more specifically, the University considers sexual harassment of both employees and students to be unacceptable behavior.

THE UNIVERSITY

Mission Statement

Salisbury State University is a comprehensive institution of higher learning offering a traditional, liberal arts curriculum and a variety of pre-professional and professional programs on both the graduate and undergraduate levels. The following Mission Statement, approved by the faculty and the administration in 1984, expresses the ideals which underlie the service of the University to its students and to the regional and state community of which it is a part.

The faculty and administration of Salisbury State University accept the responsibility to foster in our students an ability to obtain, understand and accurately assess information and ideas, to think reasonably and independently, and to speak and write intelligently and effectively.

In order to give focus and direction to the students' course of study, the University is committed to introducing students to a system of ideas about the nature of humanity, the universe and the world created by art and thought. To this end, the University offers as the cornerstone of learning an integrated curriculum which examines the salient ideas in the humanities, social sciences and mathematics. This curriculum serves students both as the foundation for specialized study and as the source for a set of convictions which can guide the conduct of their lives.

Furthermore, the University assumes that what we teach and how we teach ought to foster in our students a disposition for responsible conduct. As such, we are committed to encouraging attitudes of integrity and fairness, respect for others, dedication to the pursuit of truth, and the willingness to uphold and to challenge one's own convictions. It is expected that these attitudes will instill in our students a desire to do things well, to sustain rather than disparage high principles, and to participate as informed, committed citizens in the public forum.

The University also assumes the responsibility to prepare students to work confidently and effectively in their chosen careers; to this end we provide practicable counseling and a number of professional and technical degree programs. Career preparation is not the exclusive province of such programs, however; certain attributes—the power to think clearly, judge soundly and communicate effectively, the ability to interact with people in a productive and considerate way, and the capacity to adapt and learn in new and unfamiliar situations—must be learned in all courses. And, most important, we attempt to instill in our graduates a spirit of dedication to their vocations and a sense of service to society.

The University is also committed to graduate study beyond the baccalaureate level. To help graduate students enrich and extend their knowledge and competence in their respective fields of study, the University encourages them to embrace an ethos dedicated to the continuing acquisition of knowledge and the pursuit of the intellectual ideal. We expect those engaged in graduate study to commit themselves to excellence through the consistent exercise of coherent thought, sound judgement and effective communication.

The University recognizes that the students have needs and interests that go beyond the scope of academic life. Therefore, we provide additional services and sponsor extracurricular and co-curricular activities which are consistent with the goals and purposes of the institution. Services that support the physical and mental health of the students, and activities such as student government, athletics and cultural events that enhance their lives, are sponsored by the University as necessary components of the education of the whole person.

Finally, we recognize the important contribution that the University and our faculty make to the local region and therefore provide to the surrounding community, when and where feasible, the cultural, social and professional resources of the University.

Graduate Studies Mission Statement

The faculty and administration of Salisbury State University accept the responsibility to enhance in graduate students the ability to obtain, understand and accurately assess information and ideas, to think reasonably and independently, and to speak and write intelligently and effectively.

Graduate education at Salisbury State University shall encourage students to expand knowledge and facility in their respective fields of study and to embrace an ethos dedicated to the continued acquisition of knowledge and the pursuit of the intellectual ideal.

The graduate faculty of the University shall demonstrate the capabilities, experience, professional involvement, instructional performance, scholarly productivity and service essential for high quality. It is recognized that continual research activities and professional service are major contributors to the maintenance of graduate-level teaching competence.

The faculty believe that the substance and method of instruction and research must foster in students a disposition for responsible conduct characterized by integrity, fairness, respect for others, dedication to the pursuit of truth and a willingness to re-examine one's own convictions. One of the University's primary objectives is to foster in students a desire for excellence, a reverence for high principles, and the ability to participate as informed, committed citizens in the public forum.

The University shall prepare graduate students to work confidently and effectively in their chosen careers. It shall provide counsel, guidance and instruction appropriate to the requirements of graduate programs.

Coherent thought, sound judgment and effective communication shall be demonstrated by students in all areas of study.

Because students at whatever level of study have interests and needs beyond the scope of academic life, the faculty and administration shall provide and sponsor those services and extracurricular activities which are consistent with the goals and purposes of the institution in general and the graduate program in particular. Furthermore, the University is committed to the integration of graduate students into the social and cultural fabric of campus and community life.

History

In 1922 the state legislature established a commission to determine a location for a two-year college on the Eastern Shore of Maryland. A site at Salisbury was selected and the institution opened in September 1925. Since its founding, the University has successfully met the increasing demands of society for quality education and today offers a variety of undergraduate programs in liberal arts, sciences and the professional fields of business administration, education, medical technology, nursing and social work. In addition, the University's division of graduate study offers master's degree programs in business administration, education, English, nursing, psychology and history.

Originally authorized as a college offering a two-year program, the course of study was increased to three years in 1931 and in 1934 to four years. Following this, and by action of the legislature of 1935, the College was authorized to grant the Bachelor of Science.

Expansion of the academic program occurred in 1947 and again in 1960, at which point four-year programs in both the arts and sciences with majors in a number of academic fields had been developed, which provided students with a choice of pursuing either a Bachelor of Arts or a Bachelor of Science. In 1962 the State Board of Trustees approved a graduate program leading to the Master of Education. This was followed in 1971 with approval for a Master of Arts in history, in 1974 a Master of Arts in English, in 1975 a Master of Arts in psychology, in 1981 a Master of Business Administration program and in 1982 a Master of Science with a major in nursing.

In 1988 the state legislature approved the name change from College to University. Today Salisbury State University stands as a nationally accredited four-year, multipurpose liberal arts university offering 36 distinct undergraduate and graduate degree programs in a friendly atmosphere that encourages close relationships between faculty and students.

Location

Salisbury State University is located on U.S. Route 13 at the southern edge of Salisbury, which has a metropolitan population of 56,000 and lies 32 miles west of Ocean City, MD, 115 miles southeast of Baltimore and Washington, 125 miles south of Philadelphia and 125 miles north of Norfolk, VA.

Facilities

Holloway Hall is the administrative office building of the University. It contains most administrative offices, faculty offices, some classrooms and the Franklin P. Perdue School of Business. Also in Holloway are a modern 776-seat auditorium, social room and the North American Wildfowl Museum of the Ward Foundation.

Blackwell Library, located near the center of the campus, houses 300,000 items in open stacks including books, bound periodicals, government documents and a curriculum laboratory. The library subscribes to 1,600 periodicals and has extensive non-book resources including microforms, filmstrips, phono recordings and cassettes. The University Art Gallery is located on the second floor. The Gallery sponsors a diverse program of seven-to-eight art exhibitions each academic year.

Caruthers Hall, located near Route 13 to the right of the main entrance to the University, houses the Computer Center, the Reading Center, the Learning Center, department offices for teacher education, social work and leisure studies, classrooms, faculty offices, a 225-seat auditorium and the Communications Center, which includes the public radio station WSCL.

The Computer Center is located in the northeast complex of Caruthers Hall. The administrative computer system is a Digital Equipment Corporation VAX 11/780, 6210 Cluster. The academic computer system is a VAX 8350, with on-line terminals and printers available to students in both Caruthers and Devilbiss halls. Pro-350 and IBM PC/AT graphics equipment is also available. There are also three labs in Blackwell Library containing Apple IIe and IBM PC and PC-compatible microcomputers. Available in the Computer Center is a Cal Comp 1041 plotter. Two small additional rooms containing microcomputers and terminals are reserved for faculty use. There is a Scantron Optical Mark Reader used to process examinations, evaluations and surveys.

The Learning Center, located on the second floor of Caruthers Hall, provides a range of services for students in need of academic assistance. The center provides diagnostic testing, individual and small-group tutoring, self-paced learning programs, and formal courses in basic skill areas of reading, writing, mathematics and study techniques. The center is open daily for walk-in or referral visits.

The Guerrieri University Center, located on Dogwood Drive, includes a lounge, snack bar, bookstore, meeting rooms, post office, commuter and resident mailboxes, games room, service desk, Dean of Students Office, the Center for Personal and Professional Development and of minority affairs, an art gallery, student radio station WSUR and offices of student organizations.

Devilbiss Science Hall is located at the south end of the campus mall. In addition to its 22 classrooms and 27 offices, there are laboratories for geography, biological sciences, chemistry, physics and physical science. Special features in this building are a theatre-lecture hall seating 224 and a greenhouse.

The Health Center, located at the south end of Holloway Hall, includes a waiting room, four treatment rooms, a combined utility room/laboratory and two offices.

The Musical Arts Center, situated at the Route 13 entrance, is an acoustically treated building, containing a 17-piano electronic piano laboratory, two classrooms and faculty offices.

The Power Professional Building, located by the athletic fields on the east campus, houses laboratories for nursing, respiratory therapy and medical technology and offices for military science, communication arts, mathematics and computer science. There is also a rehearsal room for the Music Department and choral and band activities.

Honors House, located adjacent to the campus, has offices, classrooms and social gathering areas for students enrolled in the Honors Program.

Maggs Physical Activities Center includes a large arena, swimming pool, wrestling room, dance studio, weight room, Nautilus room, classrooms, offices, large multipurpose gymnasium, indoor tennis center with three courts, three racquetball courts, varsity and intramural locker rooms, training room, equipment and reception area.

Powell Dining Hall, located near the center of the campus, seats nearly 1,000 students and offers the latest collegiate kitchen equipment.

The President's Home is located on a wooded knoll on the southern edge of campus.

Residence Halls offer students a variety of living environments and lifestyle options. Pocomoke and Wicomico halls house men; Manokin and Nanticoke halls house women. Coeducational facilities include Chester, Choptank, Chesapeake, St. Martin and Severn halls. Dogwood Village, a modular housing complex consists of 14 separate buildings, each housing 10 students in single rooms. The halls are equipped with lounges offering television, conversational groupings and study areas. Laundry and vending facilities are also provided. The Hall Education Center, approximately one mile from campus and located next to Peninsula General Hospital Medical Center, provides off-campus dormitory space.

The Sociology Building is a recently renovated brick house located in the southwest area of the campus near the Dogwood Drive parking lot.

Potomac Hall houses the Art Department, including art studios, classrooms and faculty offices. The Modern Languages lab is also located in this building.

The Maintenance Building houses the central stores and the motor pool.

Outdoor Athletic Facilities include a multi-use stadium, varsity fields for soccer, baseball, softball and field hockey, practice fields, all-weather 400-meter track and 12 hard-surface tennis courts featuring plex-pave surfaces, of which six are lighted for night play. The baseball diamond features an AstroTurf infield, the only one in the state.

DIVISION OF GRADUATE STUDY

Salisbury State University is approved for graduate instruction by the Middle States Association of Colleges and Schools and the Maryland Higher Education Commission. The University offers graduate programs leading to the Master of Business Administration, the Master of Education, the Master of Arts in English, in history and in psychology, and the Master of Science in nursing. Graduate study is also available for teachers seeking to meet requirements for basic or advanced certification and for postbaccalaureate students seeking graduate credit in both academic and professional areas.

During the fall and spring semesters, the great majority of graduate students enroll for courses conducted in the evening program of the University. Designed for part-time students, this program consists mainly of courses meeting once weekly throughout the semester in either late afternoon or evening sessions of approximately three hours each. A limited number of courses, open to both graduate students and advanced undergraduates, is also available in the regular daytime program. In addition, graduate study is available in the University summer program.

Objectives

The primary objective of the Division of Graduate Study at Salisbury State University is to provide college or university graduates with opportunities for professional advancement and personal enrichment through graduate study. The graduate curriculum is designed to assist such students in attaining greater mastery of their fields of specialization, to improve skills in pursuing independent study and to increase professional knowledge and ability through the study of new findings in areas of special interest.

The University also recognizes an obligation to college or university graduates residing in the general community of the Eastern Shore and strives to offer constructive coursework at the graduate level designed to meet their specific needs throughout the year.

ACADEMIC REGULATIONS AND PROCEDURES

Admission to Graduate Study

To be eligible for admission to graduate study the applicant must have completed requirements for the bachelor's degree at a regionally accredited institution of higher learning or at an institution accredited by the Maryland Higher Education Commission and have submitted all required application materials. Students seeking admission to graduate study may obtain application materials from the Office of Graduate and Continuing Education. A completed application will consist of the *Application for Admission to Graduate Study* form, the application fee, two completed recommendation forms, an appropriate test score (see next paragraph), and official transcripts from the baccalaureate granting institution and all institutions enrolled in for graduate study. All application materials must be submitted to the Office of Graduate and Continuing Education at least 30 days prior to the beginning of the academic term in which the student intends to enroll.

Applicants seeking admission to a specific master's degree program must submit the appropriate exam score for that program; other applicants must submit scores from the Graduate Record Examination (GRE). A \$25 non-refundable application fee must accompany the application. The applicant must request the registrar of the undergraduate institution to forward an official copy of the undergraduate transcript, showing completion of baccalaureate requirements, and must request the registrar of all graduate institutions to forward official copies of graduate study directly to the Office of Graduate and Continuing Education.

Upon admission to graduate study, applicants may receive full or provisional admission status. Students who lack the required undergraduate grade point average may be provisionally admitted. *Admission to graduate study does not constitute admission to a specific master's degree program.* To be admitted to a master's degree program a student must: (1) receive full admission status to graduate study and (2) meet the requirements for admission to a specific master's degree program. Upon admission to a master's degree program, the applicant will be a degree-seeking student. Non-degree students are students who have: (1) full admission status but have not been admitted to a master's degree program or (2) provisional admission status. Admission to the University is granted without regard to race, color, sex, religion or national origin.

Full Admission Status

To be eligible for full admission status to graduate study the applicant must have completed the requirements for the bachelor's degree at a regionally accredited institution of higher learning or at an institution of higher learning accredited by the Maryland Higher Education Commission with a minimum overall grade point average of 2.75 on a 4.0 scale, and have all application materials on file. Upon receipt of all application materials, the complete application will be reviewed and the applicant will be formally notified of full admission status.

Provisional Admission Status

A student who has submitted all application materials but has not obtained a 2.75 cumulative grade point average upon completion of the baccalaureate may be provisionally admitted for graduate study. Any provi-

sionally admitted student will be required to attain full graduate admission status by completing nine semester hours of credit with a 3.0 cumulative grade point average and with no grades below a C within two academic years from the date of provisional admission. A provisionally admitted graduate student may make application to a master's degree program, but may not be admitted to the program until the student has received full admission status. A student who does not attain a 3.0 or higher cumulative grade point average following completion of nine or more semester hours of credit will be academically dismissed.

Admission to a Master's Degree Program

Those students indicating on their application forms an intent to pursue graduate study leading to a master's degree must meet the requirements for admission to the selected degree program. Students seeking information about a specific master's degree program should consult the "Graduate Degree Programs" section of this catalogue or address inquiries to the appropriate program director. Upon the student meeting such requirements, the program director will formally notify the student of admission to the degree program selected and will assign a faculty advisor who will assist in formulating a plan of study most appropriate for the student's needs. During the student's first semester of registration, the student will submit the *Plan of Study* form for approval by the faculty advisor and the program director.

Non-degree Students and Non-degree Credit

Students who have been admitted to the University for graduate study but who have not been admitted to a master's degree program are considered as non-degree students. Those students may enroll in graduate courses with the approval of their assigned general graduate faculty advisor and approval of the appropriate program director.

Once accepted for graduate study, a graduate non-degree (GND) student may continue to enroll for graduate credit as long as all other academic regulations are satisfied. A maximum of nine semester hours of credit earned at Salisbury State University prior to formal admission to a master's degree program may be applicable toward requirements for the degree, provided such credits are appropriate for the degree program desired and conform with the regulations of the Office of Graduate and Continuing Education.

Continuous Registration

Students who are admitted to graduate study must register for at least one course every calendar year. If a student does not register for a course each calendar year, the student will be automatically withdrawn from graduate study and must apply for readmission. Readmission will require payment of the application fee of \$25, but will not require submission of any other documents if the readmission is sought within seven years from the time of initial admission.

Admission of International Students

International students who demonstrate graduate ability and proficiency in the English language may be offered admission. International students should submit all documents required for admission by May 1 for the fall semester and September 1 for the spring semester.

Documents that are required for admission are:

1. An "Application for Graduate Study" form
2. Official or certified true copies of all grade reports, diplomas and academic records;
3. An "International Student Directory and Visa Information" form; and
4. A "Declaration of Finances" form

All documents must be sent directly to the Office of Graduate and Continuing Education by the institution at which such work was completed. Documents not written in English must be accompanied by English translations.

International graduate student applicants are also required to have their credentials reviewed by professional, external evaluators identified by Salisbury State University. The appropriate forms for such review will be sent to applicants early in the admissions process.

In addition, applicants whose native language is other than English must take the Test of English as a Foreign Language (TOEFL) and have the results forwarded to the Office of Graduate and Continuing Education. Information on the test dates and test centers for the TOEFL may be obtained by writing to: Test of English as a Foreign Language, Box 899, Princeton, NJ 08540. A minimum of 550 on the TOEFL is required for admission.

Graduate Credit During Senior Year

Salisbury State University undergraduates who are within six semester hours of completing requirements for the baccalaureate and who have submitted the *Application for Admission to Graduate Study*, the application

fee, two completed recommendation forms and an appropriate standardized test score may register for up to six hours of graduate credit at the 400 level (or 500 and 600 levels in business administration) to be taken concurrently with the remaining courses in the baccalaureate program, upon the approval of the dean of graduate and continuing education. Graduate credit will be awarded only upon completion of baccalaureate requirements by the end of the semester in which the final course requirements were begun.

Transfer Credit

On the recommendation of the faculty advisor, and with the approval of the master's degree program director and the dean of graduate and continuing education, a student may transfer up to nine semester hours of graduate credit from other accredited institutions, subject to the following conditions. Credits proposed for transfer must be: (1) directly related to the program in which the student desires to study and approved by the program director and the dean of graduate and continuing education; (2) acceptable for graduate degree credit by the home institution; and (3) supported by an official transcript showing graduate credit earned with a grade of B or better.

Students planning to earn graduate credit at other institutions for possible transfer toward master's degree requirements at Salisbury State University will, in all cases, contact the Office of Graduate and Continuing Education and request the *Permission to Study at Another Institution* form. Students should give full particulars on the courses to be taken including a copy of the course description and the number of hours involved in course instruction, so that a decision can be made in advance regarding the acceptability of such credit for transfer. In each case, the student should make certain that classification as a "graduate student" has been obtained at the institution from which the transfer of credit is expected. Credits earned by correspondence are not eligible for transfer. No credit will be awarded for any course taken before official approval to enroll in the course has been granted.

Transfer credit taken more than seven years prior to the date of graduation may not be counted toward a graduate degree (see "Time Limitation"). Transfer credit that has been applied to one graduate degree may not be applied to a second graduate degree.

The cumulative grade point average of each student will be calculated *only* on work taken at Salisbury State University.

Faculty Advisory System

On admission to a master's degree program, the student is assigned to a faculty advisor in the appropriate field of study. The advisor's role is to help a student develop a valid plan of study and to recommend to the respective program director and to the dean of graduate and continuing education those candidates who have met program requirements for the master's degree.

Full admission, non-degree students and provisionally admitted students will be assigned a general graduate faculty advisor to assist in course selection and registration.

The student is ultimately responsible for formulating a plan of study which satisfies University and master's program requirements while meeting personal and professional goals. In order to develop and schedule such a plan of study effectively, the student should meet with the faculty advisor (1) upon admission to graduate study, (2) upon admission to a degree program, (3) periodically throughout the program and (4) at the start of the semester prior to the awarding of the degree. Where the student and the faculty advisor agree to deviations from the program of study, such changes must be approved in writing by the advisor, the program director, and the dean of graduate and continuing education, and entered as approved on the student's record.

Catalogue Selection

A student admitted to a master's degree program is generally allowed to satisfy graduation requirements as stated in any single *Graduate Catalogue* of the University which satisfies all of the following conditions:

1. The catalogue *does not predate by more than seven years* the catalogue in effect at the time of the student's graduation.
2. The catalogue selected was published no earlier than the time of the student's admission to a master's degree program at the University.
3. The catalogue selected meets all requirements imposed by external agencies.
4. The catalogue does not require the University to retain and/or provide disestablished policies, curricula or special facilities, or to continue to provide resources unnecessary for the completion of the existing academic program.

Time Limitation

All work toward the master's degree (including transfer credits and thesis, if applicable) must be completed within seven calendar years from the end of the academic term in which such work began. Transfer credit taken more than seven years prior to the date of graduation may not be counted toward a graduate degree.

Course Load

The unit of credit is based on the semester system. The minimal course load for a graduate student attending full time is nine credit hours per semester. Requests for course loads in excess of 12 per semester must be approved by the program director and by the dean of graduate and continuing education. Six hours credit is considered a full course load for the summer or winter session. Requests for course loads in excess of nine per summer session or six per winter session must be approved by the program director and by the dean of graduate and continuing education.

Class Attendance

Students are expected to attend all class meetings of courses for which they are registered unless informed otherwise by the instructor concerned. Frequent unexcused absences, together with unsatisfactory work due to absence, may result in exclusion from the course.

Course Numbering System: Graduate Credit

Courses at the 500 and 600 levels offer graduate credit exclusively and are not available to undergraduates. Courses at the 400 level appearing in this catalogue may be taken for graduate credit or for undergraduate credit. Graduate students enrolled in such courses are expected to do graduate-level work and to meet requirements more rigorous than those established for undergraduates. It is the responsibility of the individual instructor to define precisely the quality and quantity of work that is expected from members of classes, both graduates and undergraduates.

Grading System

A four-point grading system is used to identify the quality of academic work. The grade of A carries four grade points per credit hour, B carries three points, C carries two points and F carries zero points. A cumulative grade point average of 3.0 on all work taken in pursuit of degree requirements is required for graduation. The following grades and symbols are used to evaluate the student's work in courses taken for graduate credit:

A (Excellent)	IP (In Progress. Used for grading on-going thesis projects and independent studies; will be converted to letter grade upon completion.)
B (Good)	NR (Grade Not Reported by Instructor)
C (Below Standard)	W (Withdrawal)
D (Poor, with no credit for degree allowed)	WP/WF (Withdrawal Passing/Withdrawal Failing)
F (Failure)	
AU (Audit. Approved attendance without credit.)	
I (Incomplete)	

The symbol "I" denotes non-completion of course material for reasons beyond the student's control and is assigned only if the course deficiencies result from unavoidable circumstances. This symbol generally becomes a grade of F if the work is not made up prior to midsemester of the next full semester for which the student is enrolled, or at the end of one calendar year, whichever is earlier.

The symbol "W" denotes that the student officially withdrew from a course or from the University during the schedule adjustment period of the fall or the spring semester or during the schedule adjustment period of the summer or the winter session. (For specific dates, students should refer to the University's "Academic Calendar.") For students who withdraw from the University after these deadlines, the symbols "WP" or "WF" are assigned to denote the student's status at the time of withdrawal. However, for students who withdraw from only a part of their course loads after these deadlines but who remain registered for at least some part of their original course loads, a grade of F will be recorded for the courses dropped.

Academic Standards

To remain in good academic standing, a student admitted to graduate study must maintain a cumulative grade point average of at least 3.0 on all graduate courses. If the cumulative average falls below 3.0 the student will be placed on probation. Dismissal from graduate study and a master's degree program is automatic if the grade point average is not restored to 3.0 by the time of completion of the next nine hours of credit following the semester in which the student drops below 3.0.

In exceptional circumstances, a student dismissed for academic deficiency may be considered for **Readmission** to the program from which dismissal occurred or to another master's degree program. *In no case will such readmission to graduate study be granted prior to one calendar year following the term of dismissal.* Such a student must submit the appropriate application form to the Office of Graduate and Continuing Education not later than 90 days prior to the term for which admission is desired. In each case, *the application*

must be accompanied by a letter showing reasons for lack of previous academic success and indicating reasons why acceptable academic performance might be expected in the future. Decisions on such applications will be made by the dean of graduate and continuing education after consultation with the program director offering the degree program to which admission is requested.

Appeal Process

A student may appeal decisions made under the academic policies and regulations set forth in this catalogue. Prior to initiating the appeal process the student and the faculty advisor should confer. The appeal process shall be initiated upon written request by the student. An appeal regarding the program will be heard first by the program director. A classroom-related appeal will be heard first by the instructor. The appeal process then proceeds from department chair to school dean or the dean of graduate and continuing education to the vice president of academic affairs, then finally to the president.

Academic Dishonesty

The University expects all students to conduct themselves in accordance with the highest standards of personal integrity and academic honesty.

It is each faculty member's responsibility to maintain the standards of academic honesty in all matters related to the faculty member's coursework. The term "academic dishonesty" means a deliberate and deceptive misrepresentation of one's own work. Misrepresentations include but are not limited to:

- A. Plagiarism: presenting as one's own work, whether literally or in paraphrase, the work of another.
- B. Cheating on exams, tests and quizzes: the wrongful giving or accepting of unauthorized exam material and the use of illegitimate sources of information.
- C. Illicit collaboration with other individuals in the completion of course assignments.
- D. Use of fraudulent methods in laboratory, studio, field work or computer work.
- E. Other willful and deliberate acts generally recognized as being dishonorable and dishonest.

Procedure For Handling Cases of Alleged Academic Dishonesty

STEP 1: Faculty Action

Individual faculty members deal directly with any cases of academic dishonesty which arise in the faculty member's coursework. If a faculty member suspects a student of academic dishonesty, the faculty member will first advise the student of the accusation before imposing a penalty and allow the student an opportunity to question the accusation. The faculty member may then impose an appropriate written sanction, reflecting the seriousness of the act and ranging from an informal warning to, but not greater than, the issuance of a grade of F for the course and/or removal from the course. If the faculty member issues a grade of F for the course, notification of the action must be sent to the University Judicial Officer. If the faculty member feels the case warrants punishment beyond the issuance of an F grade for the course and/or removal from the course, the faculty member may appeal to the University Judicial Officer (as described in Step 3 below), provided that the faculty member requests such appeal within five calendar days of the faculty member's meeting with the student.

STEP 2: Student Action

A student who is accused of academic dishonesty by a faculty member may either accept the penalty imposed by the faculty member or request a conference with the University Judicial Officer in the Office of the Dean of Students. The request for a conference shall be made within five calendar days of the student's receipt of the written sanction referred to in Step 1 above.

STEP 3: Conference with the Judicial Officer

If, in the judgment of the faculty member, the alleged act of academic dishonesty warrants extreme sanctions, the faculty member may request that the matter be brought before the University Judicial Officer for consideration and recommendation for disposition, as provided for in Step 1 above. Similarly, if the student wishes to appeal the decision of the faculty member (as outlined in Step 2 above), the student may request a conference with the University Judicial Officer for consideration and recommendation for disposition.

In the event that either the faculty member or the student desires a conference concerning the matter, the University Judicial Officer shall meet with the parties concerning the matter, give consideration to differing views and make recommendations for disposition.

STEP 4: Formal Hearing, University Judicial Board

After conferring with the University Judicial Officer, the faculty member or the student may appeal to the University Judicial Board within five calendar days of such conference. The University Judicial Board shall then convene to consider the appeal and render a decision.

Financial Assistance

A limited amount of financial aid in the form of graduate assistantships from the University and grants from the Maryland Other Race Grants Program is available each year to selected graduate students. Information concerning such assistance may be obtained from the Graduate Office.

Tuition and Fees

Tuition for graduate students classified as Maryland residents is \$87 per semester hour for graduate credit. Tuition for graduate students classified as out-of-state residents is \$97 per semester hour for graduate credit. In addition, an out-of-state fee of \$15, payable at each registration, is assessed each graduate student residing out of state.

Also payable at each registration is a registration fee of \$26. The following additional fees, usually non-recurring, are also applicable for most graduate students: admission to graduate study, \$25; on-campus parking fee (payable once annually between September 1 and August 31), \$10; and academic services fee, \$10. A penalty of \$25 is charged for late registration.

There is a facilities fee of \$3 per credit hour for all graduate students.

It should be noted that tuition and fees are subject to change without notice by action of the Board of Regents of the University of Maryland System.

Official Withdrawal and Refund Procedures

Students are urged to note this information with care.

A graduate student who finds it necessary, after registration, to drop a part of his/her course load, or to withdraw from the University completely for that term, should in all cases complete the official drop or withdrawal form and submit it to the Office of the Registrar. This assures the student that any refund due will be processed automatically, and that the change of registration will become a matter of record.

Students failing to comply with regulations governing official withdrawal and/or dropping of courses will receive a grade of F for courses from which they withdraw or drop unofficially, and will forfeit all right to refunds which might otherwise be made.

Detailed procedures for official withdrawal from the University and official dropping of courses, including deadlines for submitting forms necessary for the disbursement of refunds, appear regularly in the *Registration Bulletin for Undergraduate, Graduate and Continuing Education* and in the *Summer Session Bulletin* and the *Winter Term Bulletin*.

Application for Diploma

It is the responsibility of the individual graduate student to check with his/her faculty advisor to make sure that all degree requirements have been fulfilled and to make the necessary arrangements at the Office of the Registrar for graduation.

Each degree candidate must make application for his/her diploma. *The Application for Diploma* is available at the Office of the Registrar and must be completed and returned to the Registrar's Office **not later than the end of the drop/add period of the final semester before graduation.**

If the student fails to file the *Application for Diploma* by this deadline, graduation may be delayed one semester. Any student who finds it necessary to postpone graduation must submit a new *Application for Diploma* to the Office of the Registrar.

Transcripts and Certification of Completion of Degree Requirements

Transcripts of graduate records and certification of the completion of degree requirements may be obtained by contacting the Office of the Registrar. Certification of completion of degree requirements will be made only after all requirements are, in fact, completed and after the *Application for Diploma* is submitted.

Professional Certification

Requirements for the various teaching and administrative state certificates change from time to time and are determined by agencies other than the University. Therefore, the University cannot guarantee that a particular graduate program will automatically fulfill requirements for any of the various certificates available. Students seeking such certification are advised to consult a certification specialist within their state departments of education for information on the particular certification requirements they may wish to meet.

STUDENT SERVICES, PROGRAMS AND POLICIES

General Information

Student services, programs, policies and procedures exist at Salisbury State University to complement the academic mission of the institution. Student services, programs, policies and professional staff focus on enhancing the teaching/learning environment for students and faculty, and on facilitating the personal development of learners. These goals are accomplished in part by services, programs and staff in offices of the Dean of Students, the Center for Personal and Professional Development, the Health Center, the Guerrieri University Center and the Office of Public Safety.

Information on these University departments follows below.

SERVICES

Guerrieri University Center (543-6100)

The Guerrieri University Center is the social, recreational and cultural center for the University. Programs, services, facilities and staff implement extracurricular activities that complement the formal classroom and that benefit all members of the University community, especially students. The facility promotes informal gatherings of students, faculty and staff. The Guerrieri University Center contains a snack bar, bookstore, quiet lounge, meeting rooms, post office, games area and information desk. Administrative offices are located in room 222.

The Book Rack (University Bookstore) Guerrieri University Center (543-6085)

The Book Rack is located in the Guerrieri University Center. Its primary purpose is textbook sales. The store also services a variety of other needs including paperback books, school supplies, drug supplies, gift items, posters, greeting cards, bicycle accessories, film and photographic supplies, newspapers and magazines.

Hours for The Book Rack are posted. In general, the store is open 9 a.m.-7 p.m., Monday-Thursday and 9 a.m.-5 p.m., Friday.

Returns for full credit are accepted on new and unmarked items for two weeks from the date of purchase upon presentation of the sales receipt. Textbook returns are permitted during the first two weeks of the semester only. Used books are purchased as a service to students during exam week each semester. Special orders are accepted for books and records.

The Center for Personal and Professional Development Guerrieri University Center, Room 263 (543-6070)

The University staff recognize that many students experience stress and personal problems which interfere with academic success. Specific problems might be of a personal, relationship, family, academic or vocational nature. Problems experienced by students include:

performance anxieties	death/loss issues
testing	relationships
speaking	drug/alcohol
recitals	depression
athletics	weight/eating concerns
sexuality concerns	academic/vocational issues
time management	

All counseling is *confidential* and there is no fee. Referrals to appropriate departments or agencies are provided.

In addition to personal psychological counseling, the center offers developmental workshops to various student groups on campus.

Information and appointments with a professional counselor can be made by stopping by the office in the Guerrieri University Center. Students may take advantage of walk-in hours, 11 a.m.-2 p.m., Monday-Thursday.

Disabled Students Guerrieri University Center, Room 201 (543-6080)

Students capable of academic success, regardless of their disabilities, are admitted to Salisbury State University. Faculty and staff work cooperatively to assist disabled students in educational endeavors and

adjustments to the campus community.

Salisbury State University is recognized as a barrier-free campus. Residence hall space for disabled students is available in four of seven halls. Sidewalks and entrances to all buildings are ramped.

Prospective students are encouraged to visit the University to become familiar with the campus and to meet support staff prior to making their final acceptance decision. The Dean of Students Office welcomes inquiries from students with special needs.

Health Center Holloway Hall, Room 180 (543-6262)

Recognizing that good health is essential to effective learning, the University maintains a health service available to all full-time students. Part-time and special students are eligible for Health Center services upon payment of activities fees. The Health Center, located in Holloway Hall across from the library, provides confidential treatment of illness and injuries through a well-equipped facility and expert professional staff, including a physician and five nurses with specialized training in college student health. Other services are available five minutes from campus at Peninsula General Hospital Medical Center, which includes a modern 340-bed facility and an emergency room open 24 hours a day, seven days a week.

Inpatient care, i.e. 24-hour infirmary service, is not provided by the Health Center; however, nursing staff are members of the Crisis Management Team and are notified by pager system in the event of an emergency.

If a student should contract a contagious disease or acute illness, the family is notified and required to arrange for care of the student through the recovery period.

Prior to treatment in the Health Center, each student is required to complete a health history form. An immunization record is required of all students regardless of age, and failure to provide this information may result in students being unable to register.

The University Health Center assumes no financial responsibility for student care other than that provided by the Health Center. Students are urged to carry their own accident and health insurance since the University is not legally responsible for accidental injuries and resulting medical expenses. A University endorsed health insurance plan is available; brochures on the plan are located in the Health Center.

Health Center hours are posted each semester at the center.

Accident and Health Insurance Holloway Hall, Room 180 (543-6262)

Students are encouraged to carry their own accident and health insurance since the University is not legally responsible for accidental injuries and resulting medical expenses. A University endorsed health insurance plan is available; brochures on the plan are mailed to each student prior to the fall semester and additional copies are located in the Health Center.

Office of Public Safety Holloway Hall, Room 022 (543-6222)

The Office of Public Safety, located in Holloway Hall, room 022, can be contacted 24 hours a day. There are two sections of this office—Campus Police and Safety Services. Campus Police services include investigation of crimes and incidents on campus, response to emergencies, vehicle registration, parking enforcement, lost and found and physical security of buildings. The Public Safety section ensures that the environment is free from hazards that may cause injuries to members of the University community. This is accomplished through periodic inspection of University buildings and grounds and through campus-wide involvement and information about fire and safety matters.

Vehicle Rules and Regulations Holloway Hall, Room 022 (543-6222)

The University extends to students the privilege of driving and parking motor vehicles on the University campus. In return for this privilege, each student assumes the obligation of abiding by the rules and regulations of the University governing the use of motor vehicles on campus.

Each student who wishes to drive or park a motor vehicle on the campus must make application to do so at the time of academic registration. Application must also be made at any time following registration when a motor vehicle is brought onto the campus. A driver's license and state automobile registration card are required to register a vehicle. Freshmen who reside in residence halls are not permitted to register a vehicle on campus.

Specific traffic rules and regulations are distributed to all students upon registration of a vehicle. It is the student's responsibility to thoroughly read and understand these regulations and to abide by them. Violations of

the regulations will result in a fine and/or revocation of driving and parking privileges and/or possible impoundment of the vehicle at the student's expense. The University assumes no responsibility for the car and/or protection of any student's vehicle or its contents.

Vehicle registration is held in the Office of Public Safety, Monday-Friday, 8 a.m.-4:30 p.m. A \$10 fee is charged for each vehicle registered.

GRADUATE DEGREE PROGRAMS

The Master of Business Administration

The Franklin P. Perdue School of Business was created with a multimillion dollar enhancement fund to ensure that the programs offered by the school maintain a high level of excellence. The Perdue School is the largest center for business training and development at the university level in this region. Key characteristics of the school are its emphasis on the entrepreneurial spirit, its blend of theoretical and applied study, and its close interaction between the business community and the classroom. The Perdue School is committed to superior teaching with a concern for students and their individual development as well as the employment of high quality faculty engaged in service and research. The M.B.A. program is designed to allow both recent graduates and experienced managers to complete the degree requirements at an individualized pace. Students may enroll on either a part-time or a full-time basis, with completion generally in three-to-five semesters, depending on enrollment status.

I. Admission to the Program

In addition to the general requirements for admission to the Salisbury State University Division of Graduate Study, described previously in this catalogue, applicants for admission to the M.B.A. program must have:

- A. Completed the core of required undergraduate courses cited below or their equivalent graduate survey courses.
 - Principles of Accounting I and II
 - Macro- and Micro-economic Principles
 - Financial Management
 - Principles of Management or Management and Organizational Behavior
 - Principles of Marketing
 - Elementary and Intermediate Business Statistics
 - Legal Environment of Business
 - Production Management
 - Management Information Systems

In addition to the above required courses, prospective M.B.A. candidates must have a course in finite math, applied calculus or an equivalent college-level math course.

- B. Attained a total score of at least 950 points based on the formula: 200 times the student's overall grade point average (on a 4.0 scale) plus the GMAT (Graduate Management Admission Test) score; or at least 1000 points based on the formula: 200 times the upper division grade point average plus the GMAT score.
- C. Obtained two letters of recommendation from individuals qualified to judge the applicant's ability to do graduate work in business.
- D. Submitted a resume including a statement of reason for pursuing the Master of Business Administration and a statement of career goals.

II. Provisional Admission

Provisional admission may be granted to applicants who have not yet completed the required core of undergraduate courses but whose grade point averages and GMAT scores meet the required total shown in the admissions formulas above. Students in this category should apply for admission as soon as possible so that a specific, individualized plan for satisfying core requirements may be developed in consultation with the director of business graduate programs of the Franklin P. Perdue School of Business. Provisionally admitted students may, with approval of the director, take a maximum of six semester hours of M.B.A. courses (600-level) while under the provisionally admitted status.

Provisionally admitted students must maintain a cumulative grade point average of at least 3.0 in undergraduate M.B.A. prerequisite courses and 500-level courses (combined) with no grade less than C.

III. Course Requirements

- A. While matriculating, fully admitted students must maintain a cumulative GPA of at least 3.0 in 600-level courses with no grade less than C. To be eligible to receive the M.B.A., the graduate student must complete an approved program of 30 semester hours with a cumulative grade point average of at least 3.0 and with no grade lower than C. Of the 30 semester hours, 24 are required, while the remaining six hours are elective (i.e., electives within the M.B.A. program) and may be used for individualizing the student's program. The required courses are listed below.

Required Courses

- BUAD 620 Organizational Theory
- BUAD 630 Economic Environment of the Organization
- BUAD 640 Managerial Accounting
- BUAD 650 Corporate Financial Management
- BUAD 660 Marketing Strategy
- BUAD 670 Management Science Models
- BUAD 680 Corporate Strategic Planning and Policy
- BUAD 685 International Business Seminar

- B. The M.B.A. curriculum has been arranged so that full-time M.B.A. students can finish the degree requirements in three semesters and the part-time M.B.A. students can finish in five semesters. All requirements for the M.B.A. must be completed within seven years of the end of the semester in which M.B.A. work began.

IV. Financial Assistance

Awarded on the basis of academic achievement, a limited number of graduate assistantships are available for qualified M.B.A. students. Applications for graduate assistantships may be obtained from the Office of Graduate and Continuing Education or from the director of business graduate programs of the Franklin P. Perdue School of Business.

The Master of Education

The Master of Education (M.Ed.) is a professional degree designed for those students seeking advanced level preparation in the education professions. The curriculum includes fundamental, theoretical and practical experiences within specific areas of concentration. Some of the general objectives are as follows:

1. To provide school personnel an opportunity for personal and professional growth and development through graduate study.
2. To provide classroom teachers, administrators and specialists an opportunity to develop and improve competencies in their specific disciplines.
3. To provide candidates with an opportunity for additional preparation needed to advance to one of the more specialized roles in the schools.

Students seeking the Master of Education at Salisbury State University will complete an approved program of study including at least 33 semester hours of graduate credit with a cumulative average of B or higher, with no grade lower than C, and no more than six credit hours of C in their programs.

In addition to the general requirement for admission to the Salisbury State University Division of Graduate Study, the student must make application for admission to the Master of Education program. Acceptance to the Division of Graduate Study does not constitute acceptance to the Master of Education program.

I. Admission to the Program

- A. To be eligible for admission as a degree-seeking student to the Master of Education program at Salisbury State University, the prospective student must:
 1. Submit an application for admission including a written description of the reasons for pursuing graduate study in education and a statement of career goals within the discipline.
 2. Submit acceptable scores on the Miller Analogies Test from an appropriate agency. Testing arrangements may be made through the Psychology Department on campus.

Credentials for admission to the Division of Graduate Study should be sent to the Office of Graduate and Continuing Education. Credentials for admission to the Master of Education program should be sent to the School of Education and Professional Studies. Following the review of these materials by the School of Education and Professional Studies Graduate Committee, the Master of Education program director will assign those students admitted to the program a faculty advisor, and the director will formally notify the student of admission or denial to the program.

B. Plan of Study

1. Prior to registration, it is the student's responsibility to become familiar with program requirements and to confer with the assigned faculty advisor to develop a plan of study. During the student's first semester of registration, the student will submit the *Plan of Study* form for approval by the faculty advisor and the program director.

C. Non-degree, Graduate Standing

Questions regarding the applicability of courses taken as a non-degree graduate student will be resolved by the Department of Education Graduate Committee.

II. Course Requirements

- A. The core requirements in the Master of Education program are designed to:
 1. Encourage a spirit of inquiry that will enable students to design and interpret research.

2. Assist students in developing a theoretical background that applies to human development, learning and instruction and evaluation.
3. Help students acquire an appreciation of historic traditions, broad cultural themes, and social trends affecting the dynamics of educational systems worldwide and scientific approaches toward the study of educational issues and their critics.
4. Provide students with the opportunity to develop an understanding of human relationships and how they affect both the teaching/learning process and the context in which schools operate, as well as develop interpersonal/group skills which will enhance their school effectiveness.

A core of 12 semester hours in foundation courses in education is required as indicated. It is strongly recommended that Education 502: Introduction to Research (3 semester hours) be taken at the outset of graduate study.

Required (12 semester hours)

Education 502: Introduction to Research (3)

Choice of one of the following three:

Education 500: Historical, Philosophical and Social Foundations (3), or

Education 501: Comparative Education (3), or

Education 510: Seminar: Recent Issues in Education (3)

Choice of one of the following three:

Education 508: Seminar: Research in Human Development, (3) or

Education 532: Measurement and Evaluation (3), or

Education 545: Learning and Instruction in the Schools (3)

Choice of one of the following three:

Education 503: Classroom Management (3), or

Education 504: Multicultural Education (3), or

Education 584: Group Dynamics in Classroom Settings (3)

In addition to foundation courses, each Master of Education student will select an area of concentration consisting of an approved 12 semester hours concentration, six hours of approved electives and a master's thesis or approved course substitute. Detailed descriptions of available courses and additional information concerning each area of concentration will be provided by advisors.

The area of concentration shall be selected from one of the following areas: counseling, early childhood education, educational administration and supervision, elementary education, mathematics, media and technology, music, psychology, reading education, or any one of the following secondary education specializations: English education, mathematics education, science education or social science education. At least six semester hours in the concentration shall be selected from courses at the 500 level (i.e., available exclusively for graduate credit).

Example:

12 Semester Hours - Foundation courses

12 Semester Hours - Concentration

6 Semester Hours - Approved electives

3 Semester Hours - Thesis project or course substitute

Concentration

Areas of concentration will be determined by the student and the Department of Education advisor in cooperation with individual academic departments.

Thesis Option or Course Substitute

Students are required to complete a thesis or an approved course substitute. Guidelines for these options are available in the Department of Education.

Those electing the thesis option will enroll in Education 530: Directed Research (3 semester hours) and will submit the completed project to the project director. They must also satisfactorily complete an oral examination on the project, to be scheduled through the faculty advisor after completion of the project.

The Master of Arts in English

I. Admission to the Program

In addition to the general requirements for admission to the Salisbury State University Division of Graduate Study, outlined previously in this catalogue, an applicant for admission to the M.A. in English program must have:

- A. The undergraduate English major, its equivalent (30 semester hours of English beyond freshman English), or a major in a related area, with a 3.0 grade point average in those undergraduate courses. A student who fails to meet this requirement should consult the English Department's graduate director regarding removal of deficiencies.

- B. Acceptable scores on the Graduate Record Examination (GRE) Aptitude Test and GRE Advanced Test in English. A minimum score of 500 on the Advanced Test in English is required; however, under special circumstances, the English Department Graduate Committee may admit candidates who do not meet this condition. A student who chooses the language/composition concentration described below should only submit the GRE Aptitude test results.
- C. Two letters of recommendation from individuals qualified to judge the applicant's ability to do graduate work in English.
- D. A written description of the applicant's reason for pursuing English graduate study and academic goals within the discipline.

All application materials should be submitted to the dean of graduate and continuing education 30 days prior to the beginning of the semester.

II. Course Requirements

- A. To be eligible to receive the M.A. in English, the graduate student must complete 33 semester hours. Included in the 33 hours must be a minimum of nine semester hours of English at the 500 level. Students in Plan C and teaching fellows in the literature option must take a minimum of six semester hours of English at the 500 level.
- B. The graduate student must maintain a cumulative average of 3.0 or higher on all courses and must have no grades below C. After completion of the first three courses (nine semester hours) in the program, any final grade lower than C will disqualify the student from continued enrollment in the program.
- C. The student may choose one of the three following ways to meet degree requirements. All course selections must be approved by the graduate director in English.
 1. Plan A (Non-thesis)
 - a. At least 24 semester hours of English at the 400-500 level.
 - b. Up to nine semester hours at the 400-500 level in one supporting discipline, e.g., education, history, modern languages, philosophy, psychology, sociology, communication arts or art.
 2. Plan B (Thesis)
 - a. At least 21 semester hours of English at the 400-500 level.
 - b. Up to nine semester hours in one supporting discipline listed under Plan A above.
 - c. Three semester hours thesis credit (English 531).
 3. Plan C (Language/Composition)
 - a. At least 18 semester hours of coursework at the 400-500 level in language study and writing pedagogy, of which the following are required: English 431 and 465; Education 454 and 455.
 - b. The required course, English 463: Literary Analysis, and up to 12 semester hours of 400-500-level course electives in English; six of these hours are to be in literature. Subject to the graduate director's approval, three of these 12 semester hours may be elected from 400-500-level courses outside the English Department. Plan C students are not restricted to the education courses even though they are required to take six hours in education as core courses.

III. Procedures of the Academic Program

Students in Plans A or B may elect to concentrate in an area of emphasis compatible with their needs and with the availability of course offerings outlined in the department's course scheduling sequence. This area may be a period of British, American or comparative literature, a genre of literature, or the study of language, rhetoric and composition. Within the departmental course offerings, students may elect also a subordinate emphasis upon folklore or film.

IV. Additional Requirements

To help maintain a measure of commonality and a liberal scope to the degree program, all candidates for the M.A. in English in Plans A and B must take a written comprehensive examination. As soon as students have been admitted to the program, they will be provided with a list of primary texts to prepare for the examination. Students are responsible for all materials on the list regardless of the coursework they may elect. Students may take the examination at the conclusion of any semester in which they currently maintain good standing in the degree program, though they may not delay the examination longer than one full semester following the completion of their coursework. Every examination will be evaluated by two members of the English Department faculty, unless a third opinion of an examination's merits should be required. In order to earn the M.A. in English, a student must pass the comprehensive examination within two attempts.

The Master of Arts in History

I. Requirements for Admission to Candidacy

- A. At least 15 semester hours in history from the junior-senior level or above, including a course in historiography, and a grade point average of 3.0 or better in all history courses. This preparation is designed to serve as a foundation for graduate study in history and is therefore ineligible for inclusion in the 33 semester hours normally required for the degree. Students lacking this preparation must make up the deficiency prior to becoming eligible for admission to candidacy.
- B. Submission of an official copy of scores on the Graduate Record Examination Aptitude Test. It is

expected that students will submit the GRE scores at the time they apply to enter the History Department's graduate program.

- C. An acceptable verbal and quantitative score on the GRE Aptitude Test or a minimum 50th percentile is required; however, under special circumstances the History Department may admit candidates who do not meet this condition.
- D. Two letters of recommendation from individuals qualified to judge the applicant's ability to pursue graduate studies in history.
- E. Submission of the completed application for admission to candidacy to the dean of graduate and continuing education. This application should be submitted after completing the above requirements and at least 12 semester hours of graduate degree credit, but not more than 18 hours, with a cumulative average of 3.0 or higher and no grade below C.

Graduate degree students are required to earn a minimum of 15 semester hours of graduate credit after admission to candidacy, except in special cases authorized by the dean of graduate and continuing education.

II. Course Requirements

A minimum of 33 semester hours, with a cumulative grade point average of 3.0 or higher and no grade below C, is required for the Master of Arts in history. At least 15 semester hours must be taken in courses at the 500 level, and these 15 hours must include at least nine semester hours at the 500 level in history (i.e., courses available exclusively for graduate credit). The remaining six hours must be in history or in the student's designated minor field.

Students admitted to the M.A. program in history may choose either Plan A or Plan B for meeting course requirements. All course selections must be approved by the History Department's program director.

Plan A

- 1. Eighteen semester hours in history
- 2. Nine semester hours in one minor field (education, English, geography, psychology, etc.)
- 3. Six semester hours: thesis in history

Plan B

- 1. Twenty-four semester hours in history
- 2. Nine semester hours in one minor field (education, English, geography, psychology, etc.)

III. Additional Requirements

All candidates for the M.A. in history must satisfactorily complete both a written and an oral examination near the completion of their program requirements, demonstrating proficiency in the areas of study undertaken. Students should contact the chair of the History Department in this regard after completion of 21 semester hours of graduate credit. Plan A students must complete this examination requirement either prior to or in the semester concurrent with registration for the thesis. In the event of an unsatisfactory performance in whole or in part on these written and oral examinations, the candidate will be eligible for re-examination in whole or in part as the case may warrant. Such re-examination must occur within a year of the original examinations. In any event, a candidate shall be eligible for no more than one written or oral re-examination.

The Master of Science in Nursing

Graduate education in nursing builds upon generalized preparation at the undergraduate level and provides advanced role preparation and knowledge in a specialized area of nursing. Salisbury State University offers a master's program with a major in family nursing in rural areas, with functional role preparation in either nursing service administration or clinical specialization. The program is also designed to provide a basis for doctoral study in nursing.

Students seeking the Master of Science in nursing must complete an approved program of study, including a minimum of 39 semester hours of graduate credit with a cumulative average of 3.0 or higher and no grade lower than C. The program may normally be completed in two academic years of full-time study. Part-time study leading to the degree is also available.

I. Admission to the Program

In addition to the general requirements for admission to the Salisbury State University Graduate School outlined above, applicants for admission to the graduate program in nursing must meet the following requirements:

- A. Completion of a National League for Nursing accredited baccalaureate degree program in nursing.
- B. Grade point average of 3.0 on a 4.0 scale.

II. Course Requirements

A minimum of 39 semester hours, approved by the department advisor and taken in the prescribed sequence according to the functional area selected, must be completed with a cumulative grade point average of 3.0 or better and with no grade lower than C.

Each student will elect to take either clinical specialization or nursing service administration as a functional role. Once the choice has been made, the potential clinical specialist will take Biology 552: Advanced Human Physiology or Education 472: The Theory and Practice of Teaching Adults, and the potential nursing service administrator will take Business Administration 535: Health Care Finance.

III. Additional Requirements

All candidates for the Master of Science in nursing must take two semester hours of Nursing 545: Research Development and complete a thesis.

Students and their advisors will select a thesis committee composed of three faculty members. At least one of these faculty members must be a member of the graduate faculty from the Department of Nursing. The thesis committee must approve the student's thesis proposal before the student initiates the research.

Upon completion of the thesis, an oral examination will be conducted by the thesis committee.

Guidelines for the thesis are provided by the department.

COOPERATIVE PROGRAM - SALISBURY STATE UNIVERSITY AND WIDENER UNIVERSITY

Salisbury State and Widener University have established a cooperative program to provide expanded opportunities for specialized graduate education in nursing. Through this program, students enrolled in the master's degree program at Salisbury State University may elect to receive advanced preparation at Widener University as a clinical specialist in oncology nursing or burn emergency and trauma nursing. Students enrolled in the master's degree program at Widener University may elect to receive advanced preparation at Salisbury State University as a clinical specialist in family health nursing in rural areas.

Master of Science in Nursing—Second Degree Program

The School of Nursing and Health Sciences offers an accelerated track leading to the Master of Science with a major in nursing for non-nurse college graduates who wish to prepare for professional nursing roles and advanced clinical practice. The accelerated curriculum track acknowledges the educational, career and life experiences of the individual as well as interpersonal skills, intellectual abilities and maturity.

An individual must have completed at least a bachelor's degree from an accredited college or university to be eligible for admission to the accelerated track. Students from all majors, including registered nurses with college degrees in other majors, are eligible to enroll. Applicants must complete prerequisite coursework or demonstrate mastery of the following subject areas: *elementary statistics, microbiology, and anatomy and physiology* (including all body systems). Students may choose to enroll in additional arts and science courses or complete independent study modules to strengthen their backgrounds in specific areas. Faculty advisors will assist prospective students to assess their learning needs and identify independent learning resources which are available to them through the school.

I. Admission to the Program

Applicants for admission must meet all University requirements and be accepted for admission to undergraduate study by the Office of Admissions and to graduate study by the Office of Graduate Studies.

Admission to the Department of Nursing is competitive and will be based on evaluation of the applicant's overall academic qualifications. In addition, to be considered for admission to this track the applicant must submit a completed Department of Nursing application and:

- A. Hold a baccalaureate or higher degree in any major from an accredited institution.
- B. Have a minimum cumulative grade point average of 2.75 on a 4.0 scale on all college/university courses completed prior to admission.
- C. Submit a clear statement of educational and professional goals.
- D. Have a personal interview with a faculty advisor.
- E. Submit three academic and professional recommendations addressing the applicant's potential for nursing and graduate study.
- F. Submit an official copy of scores on the Graduate Record Examination (GRE) Aptitude Test only.
- G. Provide proof of an approved health examination before clinical assignments.
- H. Provide proof of current CPR certification and malpractice insurance.

In order to progress in this program track, students must meet all University and department requirements and:

- 1) Achieve a minimum grade of "C" in all required undergraduate-level courses and a minimum grade of "B" in all graduate-level courses.
- 2) Maintain a cumulative grade point average of at least 3.0 to progress to the final 30 semester hours of graduate coursework.
- 3) Be licensed as a professional nurse to progress to the final year of the program.

II. Advanced Placement for Registered Nurses

A minimum of 30 semester credit hours are required by the University for the second baccalaureate degree. Registered nurse students with bachelor's degrees in other disciplines may be eligible to receive credit by examination for selected undergraduate nursing courses. Registered nurses enrolled in this track may not receive advanced placement for graduate courses or the following undergraduate courses:

- NURS 330 - Conceptual Foundations for Nursing
- NURS 450 - Nursing Through the Life Cycle I
- NURS 475 - Nursing Process and Communities
- NURS 495 - Dimensions of Professional Nursing

III. Course of Study

There are 83 semester credit hours in the course of study. The program is designed so that it can be completed in three academic years of full-time study. During the first year of the course of study, students enroll in undergraduate-level clinical and theory courses designed specifically for students in this track. In the second year students take undergraduate and graduate-level courses which enable them to complete the requirements for the B.S. in nursing. These courses also provide the foundation for advanced clinical practice in family health nursing in rural areas. In the final year students will select either a clinical specialization or nursing service administration functional role.

The baccalaureate degree will be awarded after successful completion of 48 semester credit hours (44 undergraduate crs., 4 graduate crs.). The master's degree will require a minimum of 35 semester credit hours beyond those courses taken for the Bachelor of Science. The full-time student will normally complete the undergraduate degree requirements and be eligible to take the National Council Licensure Examination for registered nurses (NCLEX-RN) in four semesters. Students who follow the curriculum plan and meet the degree requirements will be eligible to receive the Master of Science with a major in nursing after two additional semesters of full-time graduate study and completion of a thesis/research project.

The Master of Arts in Psychology

I. Concentrations of Study

The Psychology Department offers a Master of Arts program which provides training for students in the concentrations of counseling and school psychology. Both part-time and full-time students are accepted. In addition, the department offers courses available to students in other graduate programs.

II. Departmental Admission Criteria

Entrance into a program of study in the Department of Psychology is by application and review of credentials. Admission criteria are as follows:

- A student must be admitted by both the Office of Graduate and Continuing Education and the Psychology Department Admissions Committee.
- Completion of requirements for an undergraduate major or equivalent in psychology or related area with an overall undergraduate grade point average of 2.75 and a grade point average of 3.0 in the major field during the last two years of study.
- Completion of an undergraduate course in psychological statistics and a course in the psychology of learning are required because these courses provide a foundation for graduate study in this field. Students without this foundation may be conditionally admitted to the department but must make up the deficiency prior to being unconditionally admitted.
- Submission of scores received on the Graduate Record Examination (verbal and quantitative) or the Miller Analogies Test. (MAT).
- Submission of three reference letters (using the Office of Graduate and Continuing Education form) preferably including one from a college academic advisor and the most recent employer. The individual making the recommendation should be asked to comment upon the applicant's personal qualities—ideals, honesty and leadership—ability to work in the chosen field (relationship with peers and organizational ability), academic achievement, work experiences and sense of job responsibility.

III. Admission Procedures

Admission into a program of study is a two-step process involving separate application to both the Office of Graduate and Continuing Education and the Psychology Department. The following materials must be submitted to the Office of Graduate and Continuing Education. All materials must be received at least 30 days before the beginning of the first semester of graduate study:

- A completed *Application for Admission to Graduate Study*;
- Official transcripts of all previous college coursework;
- Results of the Miller's Analogies Test or GRE (verbal and quantitative); and
- Two letters of recommendation.

Once admitted for graduate study, the student must apply for admission to the M.A. program in psychology by completing the departmental application.

IV. Academic Requirements

- A 3.0 grade point average is required in a prescribed sequence of graduate courses in order to be eligible to receive the Master of Arts.
- A minimum of 36 hours of graduate coursework is required.
- Each candidate will be required to pass a written comprehensive examination. A written request from the student must be submitted at least one month prior to the examination date. In the event the student does not pass the comprehensive examination, one re-examination may be taken. This exam will be scheduled so that the student has adequate time for review. If the student fails to perform adequately on the second exam, the student will be dropped from the program, but has the right of appeal. Guidelines are provided to students regarding the structure of comprehensive examinations.
- Each candidate must satisfactorily complete a master's thesis for three hours credit. The thesis topic must be approved by a committee of three faculty members selected by the student and the student's advisor. The thesis may be research-based (empirical), practiced-based (case formulation and analysis) or theory-based (critical review). Guidelines for the selected option will be provided by the department. Upon completion of the thesis, an oral examination will be conducted by the student's thesis committee.
- Decisions regarding continuance of studies will be predicated on a combination of factors such as demonstrated clinical competence, personality factors, and other relevant issues in addition to grades in coursework.

V. Transfer of Credit

- A maximum of nine semester hours of graduate credit may be transferred from other accredited institutions. These may not replace any of the requirements except in special cases. Such transfer credit must carry a grade of B or higher, and the coursework must be directly related to the candidate's program of study as approved by the Department of Psychology and the dean of graduate and continuing education.
- Credits earned by correspondence courses are not eligible for transfer. Extension program credits may be eligible, subject to the approval of the Department of Psychology.

VI. Faculty Advisors

Every student will initially be advised by the director of the graduate program in the Psychology Department, who advises the student on courses, approves the course of study, and acts as a channel of communication between the student and other segments of the University. During the first semester of graduate work, an appraisal is made of each student's strengths and weaknesses. The appraisal forms the basis for subsequent program planning. Such planning is a joint function of the student and the advisor.

Course Concentrations

I. Counseling Psychology

This concentration is designed to train master's-level students in psychology who have an interest in the application of intervention models in locations such as mental health centers, college counseling centers and correctional facilities. Even though the program's emphasis is on the training of applied psychologists, the department views the competent practitioner as functioning according to the scientist-practitioner model.

All students who complete the Counseling Psychology concentration are expected to have skills and knowledge in the areas of: 1) counseling theories, intervention strategies and processes; 2) legal, ethical and professional issues; 3) social, cultural and psychological foundations of behavior; 4) individual assessment; 5) research and statistics. Experiences in mental health agencies and other settings will be employed to apply knowledge gained through formal coursework.

- Required foundation courses:** In addition to Psychology 220 and Psychology 305, the following three courses are viewed by the faculty as essential to building a conceptual foundation for the more advanced courses of the program. Students who have not completed these courses must do so at the beginning of their program.

PSYC 403 - Measurement and Evaluation in Psychology

PSYC 405 - Abnormal Psychology

PSYC 407 - Psychology of Personality

B. Degree Requirements: To be considered for graduation, students must meet the following requirements:

1. Completion of required foundation courses.
2. Completion of a course of study according to the following:

Theory and Intervention (12 credits)

- PSYC 500 - Seminar in Professional Psychology (Req.)
- PSYC 544 - Clinical Intervention Skills (Req.)
- PSYC 507 - Psychotherapy and Counseling I (Req.)
- PSYC 508 - Psychotherapy and Counseling II (Req.)

Assessment (6 credits minimum)

- PSYC 505 - Personality Assessment
- PSYC 520 - Individual Intelligence Testing
- PSYC 521 - Psycho-Educational Assessment

Research and Statistics (9 credits minimum)

- PSYC 560 - Statistical Analysis of Experiments (Req.)
- PSYC 555 - Experimental Design (Req.)
- PSYC 531 - Thesis (Req.)

Special Topics (3 credits minimum)

- PSYC 406 - Psychology of Attitudes and Attitude Change
- PSYC 409 - Environmental Psychology
- PSYC 503 - Childhood Psychopathology
- PSYC 515 - Seminar in Adolescent Behavior
- PSYC 562 - Human Development
- PSYC 580 - Adult Psychopathology
- EDUC 598 - Counseling with Minority Groups

Counseling Practica (6 credits minimum)

- PSYC 524 - Clinical Practicum I
- PSYC 525 - Clinical Practicum II

3. Satisfactory completion of comprehensive examinations.

Students will select courses in consultation with their advisors according to their previous experience and their professional interests and goals.

II. School Psychology

This concentration is designed to train service-oriented school psychologists who have interests in children and young adults with learning and behavior problems. Sensitivity to the school as a social system and understanding of the interrelationships among professional personnel as well as between staff members and students are emphasized. Students who complete this program of study and have a minimum of 45 hours approved by the Maryland State Department of Education are eligible to apply for certification as a school psychologist level I (in the state of Maryland) after obtaining the required period of professional experience.

Although not required for graduation, students wishing to be eligible for certification as a level I school psychologist (in the state of Maryland) must also arrange and complete an internship in school psychology. This internship consists of a minimum of 500 clock hours of professional experience in a school psychology internship program which includes experience in regular and special education programs and which emphasizes assessment. Students interested in school psychology are advised to contact the Maryland State Department of Education for further information.

Students will select courses in consultation with their advisor according to their previous experience and their professional interests and goals.

All students who complete the school psychology concentration are expected to have skills and knowledge in the areas of: 1) counseling theories, intervention strategies and processes; 2) individual assessment, diagnosis and report writing; 3) research and evaluation; 4) social and psychological foundations; and 5) behavioral management in the classroom. Laboratory practice and experiences in the schools will be employed to relate knowledge gained through formal coursework to the skills required on the job.

A. Required foundation courses: The following three courses are viewed by the faculty as essential to building a conceptual foundation for the more advanced courses of the program. Students who have not completed these courses must do so at the beginning of their program.

- PSYC 403 - Measurement and Evaluation in Psychology
- PSYC 407 - Psychology of Personality
- PSYC 430 - Learning Theory and Its Application

B. Degree Requirements: To be considered for graduation, students must meet the following requirements:

1. Completion of required foundation courses.
2. Completion of a course of study according to the following:

Theory and Intervention (12 credits)

- PSYC 500 - Seminar in Professional Psychology
- PSYC 544 - Clinical Intervention Skills
- PSYC 507 - Psychotherapy and Counseling I

PSYC 508 - Psychotherapy and Counseling II

Assessment (9 credits minimum)

- PSYC 505 - Personality Assessment (Req.)
- PSYC 520 - Individual Intelligence Testing (Req.)
- PSYC 521 - Psycho-Educational Assessment (Req.)

Research and Statistics (9 credits minimum)

- PSYC 560 - Statistical Analysis of Experiments (Req.)
- PSYC 555 - Experimental Design (Req.)
- PSYC 531 - Thesis (Req.)
- PSYC 530 - Directed Research

Special Topics (3 credits minimum; students seeking certification may need to take additional courses)

- PSYC 503 - Childhood Psychopathology
- PSYC 580 - Adult Psychopathology
- PSYC 423 - Psychology of the Exceptional Child
- PSYC 502 - Psychology of Learning Disabilities
- PSYC 515 - Seminar in Adolescent Behavior
- PSYC 562 - Human Development, or
- EDUC 508 - Seminar in Human Development Research
- EDUC 427 - Classroom Analysis and Correction of Reading Difficulties
- EDUC 467 - Seminar: Educating the Mildly Handicapped
- EDUC 480 - Teaching Children with Special Needs
- EDUC 545 - Learning and Instruction in the Schools
- EDUC 520 - The Diagnosis of Reading Disabilities
- CMAT 450 - Speech Correction and the Classroom Teacher

School Psychology Practica (6 credits minimum)

- PSYC 524 - Clinical Practicum I
- PSYC 525 - Clinical Practicum II

3. Satisfactory completion of comprehensive examinations.

COURSES OF INSTRUCTION

Accounting

601. INTEGRATED ACCOUNTING SYSTEMS

3 hours credit

Detailed analyses and hands-on application of computerized integrated accounting software systems. Emphasis on general ledger, accounts receivable, accounts payable, payroll, inventory and report writing systems. **Prerequisites:** ACCT 304 and 341; acceptance into the graduate program or consent of the director of business graduate programs. May not be taken for credit by students who have taken ACCT 401. **Three hours per week.**

604. ADVANCED ACCOUNTING

3 hours credit

Examination of the following advanced accounting topics: foreign currency translations; segment interim and SEC reporting; troubled debt; partnerships; and estates and trusts. **Prerequisites:** ACCT 302 and 305; acceptance into the graduate program or consent of the director of business graduate programs. May not be taken for credit by students who have taken ACCT 404. **Three hours per week.**

608. ADVANCED AUDITING

3 hours credit

Advanced auditing course building on the concepts introduced in Auditing I. Major topics include: professional ethics, operational auditing, governmental auditing, statistics in auditing and computers in auditing. **Prerequisites:** ACCT 407; acceptance into the graduate program or consent of the director of business graduate programs. May not be taken for credit by students who have taken ACCT 408. **Three hours per week.**

Art

490. INDEPENDENT STUDY

Variable 1-3 hours credit

A course to provide directed study in one or a combination of studio disciplines. May be repeated once under a different subtitle. Students must furnish their own materials. **Prerequisite:** Approval of the department chair prior to registration.

500. SEMINAR: ISSUES IN ART

3 hours credit

Discussions and research concerning timely topics in art, including direct student participation and faculty lectures. Topics may vary from semester to semester. May be repeated once for degree

credit under different course subtitle. **Prerequisite:** Consent of instructor. **Four hours per week.**

NOTE: See Education Department listings for the course, Art Education (Education 495).

Biology

410. ESTUARINE BIOLOGY

3 hours credit

This course is a general study of estuarine biology with a focus on the Chesapeake Bay. The biota found there, its unique biology, and current perturbations due to environmental pollution will be covered in detail. A brief introduction to physical and chemical processes of estuaries is also included. **Prerequisites:** BIOL 121, 122 and 201 (BIOL 321 is strongly recommended). **Two hours lecture and two hours laboratory per week.**

415, 416. RESEARCH IN BIOLOGY

3 hours credit each

Independent study in which students conduct their own research projects under the supervision of a member of the faculty. **Prerequisite:** Approval of project by supervisor. Normally reserved for advanced undergraduates and graduates. **One hour of formal instruction each week and two additional hours to be arranged individually.**

418, 419. BIOLOGY SEMINAR

1 hour credit each

Discussions concerning timely topics in biology and related fields. Includes direct student participation and faculty lectures. **Prerequisite:** Consent of the instructor. **One hour per week.**

422. GENERAL PHYSIOLOGY

4 hours credit

Encompasses the underlying physical and chemical principles of vital activity. Basic mechanisms are emphasized. The laboratory will include techniques in physiological investigation. **Prerequisites:** BIOL 201, 204 or 122 and consent of instructor. **Two hours lecture and three hours laboratory per week.**

430. PLANT PHYSIOLOGY

4 hours credit

Advanced study of the physiological mechanisms utilized by plants with special reference to higher phyla. **Prerequisite:** BIOL 121 or 203. A minimum of eight hours of chemistry is highly recommended. **Two hours lecture and four hours laboratory per week.** (Available for either graduate or undergraduate credits.)

435. CYTOLOGY

3 hours credit

A discussion of the structure and function of the cell and its components. Laboratory work is based on light microscopy and electron microscopy. **Prerequisites:** BIOL 101 and 102 or BIOL 121 and 122, and completion of the biology core program or equivalent. **Two hours lecture and three hours laboratory per week.**

440. CONTEMPORARY GENETICS

3 hours credit

A lecture course for advanced undergraduates dealing with the "new genetics" techniques giving rise to the biochemical manipulations of genetic traits through the use of restrictive nucleases, gene cloning, transformation and directed genetic engineering. **Prerequisites:** BIOL 201, 202, CHEM 202, 204 or consent of instructor.

445. VIROLOGY

3 hours credit

Study of structure, replication and pathogenesis of viruses with emphasis on animal viruses and the role of viruses in our current understanding of cell and molecular biology. **Prerequisite:** Biology 375. **Three hours lecture per week.**

490. SPECIAL TOPICS IN BIOLOGY

Variable 1-3 hours credit

A study of a specific area of biological science. The topics will vary from semester to semester. This course may be taken twice, under different course subtitles recorded with the registrar. **Prerequisites:** BIOL 101 and 102 or BIOL 121 and 122, and approval of the instructor.

501. MODERN CONCEPTS IN BIOLOGY

3 hours credit

A study of the most recent developments in biology, with special emphasis on genetics, animal behavior and sociobiology. This course may be taken twice, under different course subtitles recorded with the registrar. **Prerequisites:** BIOL 101 and 102 or BIOL 121 and 122, and completion of the biology core program or equivalent. **Three hours lecture per week.**

502. BIOLOGY AND ENVIRONMENT

3 hours credit

A study of organisms as integral parts of their environments, including field studies involving applications of environmental principles. **Prerequisites:** BIOL 101 and 102 or BIOL 121 and 122, and completion of the biology core program or equivalent. **Two hours lecture and two hours laboratory per week.**

503. CONTEMPORARY CELL BIOLOGY

3 hours credit

An intensive study of the latest findings in cell biology, with application to the pressing problems of today. **Prerequisites:** BIOL 201, 202 and at least one year of chemistry. **Three hours lecture per week.**

504. PERSPECTIVES IN MODERN GENETICS

3 hours credit

Intensive study of modern genetics for the advanced student. Findings in molecular, cellular and developmental genetics will be related to classical genetic theory and current problems. **Prerequisites:** BIOL 201, 202 and at least one year of chemistry. **Three hours lecture per week.**

552. ADVANCED HUMAN PHYSIOLOGY

3 hours credit

In-depth study of the physiology and associated anatomic structures of human organ systems. Topics include the cell and the nervous, muscular, circulatory, endocrine, digestive and excretory systems, with separate attention to temperature regulation. **Prerequisite:** B.S. in biology, health related field or education with biology emphasis. **Three hours lecture per week.**

Business Administration

510. GRADUATE SURVEY OF ACCOUNTING

3 hours credit

An introduction to the principles of accounting for proprietorships, partnerships and corporations. Surveys current financial accounting principles, the accounting cycle and financial statements. **Prerequisite:** Provisional status in M.B.A. program. **Three hours per week.**

520. GRADUATE SURVEY OF ECONOMICS

3 hours credit

An introduction to macro- and micro-economic principles. Examines the constraints and choices imposed on the firm by resource limitations, technology, the domestic and international competitive environments, the growth and stability of aggregate income and a wide range of public policies. The rationale for policies to modify or augment private production and spending decisions will be considered. (M.B.A. leveling course.) **Prerequisites:** Provisional status in M.B.A. program and MATH 150, 151; COSC 110 and 111; or equivalents. **Three hours per week.**

530. GRADUATE SURVEY OF QUANTITATIVE ANALYSIS

3 hours credit

Introduction to decision-making tools and tech-

niques for making operational, administrative and upper management-level decisions. Mathematical and statistical models will be applied to managerial decision-making situations. **Prerequisites:** Provisional status in M.B.A. program and MATH 150; COSC 110 and 111; or equivalents. **Three hours per week.**

535. HEALTH CARE FINANCE
3 hours credit

An introduction to financial management in the health care environment. Designed for nurse/managers, this course covers financial accounting and analysis, financial management (including the mathematics of finance), cost accounting, budgeting, control systems, forecasting, working capital management and third party reimbursements. **Three hours per week.**

540. GRADUATE SURVEY OF FINANCE
3 hours credit

A comprehensive course in modern financial management. Includes financial theories, working capital management, capital acquisition, international finance, mergers and acquisitions, bankruptcy and reorganization and leasing. (M.B.A. leveling course.) **Prerequisites:** Provisional status in M.B.A. program and BUAD 510, 520, 530 or equivalent. **Three hours per week.**

550. GRADUATE SURVEY OF MANAGEMENT
3 hours credit

A study of the interrelationship of various management functions: principles of general management, production management, management information systems and management of international operations. Introduces various schools of management, modern organizational theories and the elements of decision-making. (M.B.A. leveling course.) **Prerequisites:** Provisional status in M.B.A. program. **Three hours per week.**

560. GRADUATE SURVEY OF MARKETING
3 hours credit

An examination of markets and marketing functions responding to a dynamic environment. An overview of domestic and international marketing functions and institutions adapting to social, economic, legal and technical change. Special emphasis will be placed on the ramifications of consumerism and regulation of marketing activities. (M.B.A. leveling course.) **Prerequisite:** Provisional status in M.B.A. program. **Three hours per week.**

615. RESEARCH METHODOLOGY
3 hours credit

Designed to develop techniques and methods for research. Includes identifying and defining managerial problems, reviewing the literature and

stating problems in terms of testable hypotheses and methods of testing hypotheses. A major research paper is required. **Prerequisite:** Admission to M.B.A. program. **Three hours per week.**

620. ORGANIZATIONAL THEORY
3 hours credit

A development of a framework for understanding the modern business enterprise. Includes a review of management thought and organizational theory, the functions of management and recent trends in management theory and practice in the U.S. and abroad. The contributions of behavioral science, management science, systems theory, contingency theory and other relevant theories are examined. **Prerequisite:** Admission to M.B.A. program. **Three hours per week.**

621. EXECUTIVE MANAGEMENT: THEORIES AND APPLICATIONS
3 hours credit

Study of organizational structures, functions, environments and processes including behavioral science concepts as determinants of quality, performance and satisfaction. Reviews classical and recent trends in management theory and practice in the U.S. and abroad. **Prerequisite:** Admission to M.B.A. program. **Three hours per week.**

625. ORGANIZATIONAL BEHAVIOR SEMINAR
3 hours credit

A study of individual and group behavior in organizational structures to understand the interaction of managers with other members of the organization. **Prerequisite:** Admission to M.B.A. program. **Three hours per week.**

630. ECONOMIC ENVIRONMENT OF THE ORGANIZATION
3 hours credit

Analysis of factors which determine aggregate production, income and employment. Evaluation of fiscal, monetary and income policies. Review of forecasting techniques. **Prerequisite:** Admission to M.B.A. program. **Three hours per week.**

635. EXTERNAL ENVIRONMENT OF THE ORGANIZATION
3 hours credit

A study of the environmental forces which influence the organization. Includes identification and measurement of external forces and effects on management decisions. **Prerequisite:** Admission to M.B.A. program. **Three hours per week.**

636. LEGAL ENVIRONMENT OF BUSINESS
3 hours credit

In-depth analysis of legal principles as they re-

late to business. Examines commercial law, product liability and government of product safety, antitrust, labor law, the social responsibility of business and the international dimension of the legal environment. **Prerequisite:** Admission to M.B.A. program. **Three hours per week.**

Geography and Regional Planning

404. RURAL SETTLEMENT AND LAND USE
3 hours credit

Analysis of the economic, demographic and spatial patterns of the rural United States. Special attention is given to the problems and potentialities of nonmetropolitan areas and to land use planning. **Prerequisite:** GEOG 203 or consent of instructor. **Three hours per week.**

405. URBAN GEOGRAPHY

3 hours credit

An analysis of the spatial distribution of urban settlements, their internal structure and characteristics. Emphasis on the development of theoretical concepts and general principles. Special attention is given to contemporary urban problems. **Prerequisite:** GEOG 203 or consent of instructor. **Three hours per week.**

406. REGIONAL PLANNING
3 hours credit

An analysis of the spatial incidence of economic growth. Emphasis on the spatial dimension as an important consideration in the theory and practice of economic development planning. **Prerequisite:** GEOG 203 or consent of instructor. **Three hours per week.**

407. INDUSTRIAL LOCATION
3 hours credit

An analysis of the major factors influencing industrial location decisions and the spatial arrangement of industrial activity. Emphasis is on the development of theoretical concepts and general principles. Some attention is given to regional and city industrial development planning. **Prerequisite:** GEOG 203 or consent of instructor. **Three hours per week.**

408. URBAN PLANNING
3 hours credit

An examination of theories and policies related to urban development and land use planning, along with techniques for evaluation. An assessment of the urban planning process with case studies. **Prerequisite:** GEOG 208 or consent of instructor. **Three hours per week.**

410. METEOROLOGY
3 hours credit

Analysis of the physical processes and dynamics of the atmosphere, including upper atmospheric flow, forecasting and severe weather. **Prerequisite:** GEOG 201. **Three hours per week.**

411. GEOMORPHOLOGY
3 hours credit

This course deals with landform analysis. Study of agents of erosion and deposition—water, wind and ice—and of the internal forces which leave visible evidence on the earth's surface. **Prerequisite:** GEOL 103 or consent of instructor. **Four hours per week, and four one-day and one three-day field trips.**

413. APPLIED CLIMATOLOGY
3 hours credit

Analysis of the impact of climate on the physical

environment and human behavior. Topics include climatic change, contemporary climatic problems and the influence of climate on agriculture, architecture and energy use. **Prerequisite:** GEOG 201 or consent of instructor. **Three hours per week.**

415. SELECTED PROBLEMS
3 hours credit

Independent study designed to permit research or in-depth work on a selected topic. Specific topic will be indicated on the student's transcript. May be taken twice for credit under different subtitles recorded with the registrar. Intended for seniors with 18 or more hours in geography. **Prerequisite:** Consent of department review committee.

422. READINGS IN GEOGRAPHY
3 hours credit

Readings designed to permit in-depth study of a selected topic. Specific topic will be indicated on the student's transcript. May be taken twice for credit under different subtitles recorded with the registrar. Intended for seniors with 18 or more hours in geography. **Prerequisite:** Consent of department review committee.

450. TOPICS IN GEOGRAPHY
3 hours credit

An analysis of selected systematic and/or regional topics. A single theme will be considered and will be entered on the student's transcript. May be taken three times for credit under different subtitles recorded with the registrar. **Prerequisite:** Consent of instructor. **Three hours per week.**

475. FIELD PROBLEMS IN GEOGRAPHY
Variable 3-6 hours credit

A geographic research field experience. Development of a research proposal, data collection and analysis, and the integration of such in a formal research paper. **Prerequisite:** Consent of instructor.

504. SEMINAR: PHYSICAL GEOGRAPHY
3 hours credit

A seminar dealing with current problems in the areas of meteorology, climatology, soils, geomorphology and vegetation. Topics selected with consent of instructor. May be taken twice for credit under different subtitles recorded with the registrar. **Prerequisite:** 400-level physical geography course or consent of instructor. **Three hours per week.**

506. SEMINAR IN REGIONAL GEOGRAPHY
3 hours credit

An analysis of selected topics on the physical and/or human geography of specified geographic

regions. The region under consideration varies from semester to semester. Topics chosen with the consent of the instructor. May be taken twice for credit under different subtitles recorded with the registrar. **Prerequisite:** 300-level regional geography course. **Three hours per week.**

530. DIRECTED RESEARCH 3 hours credit

Preparation of optional research project in master's degree program under departmental direction.

Health

401. COMMUNITY HEALTH 3 hours credit

A study of the factors involved in improving public health, including a survey of community health problems and resources, and the role of the teacher in community health. **Three hours per week.**

410. STRESS AND STRESS MANAGEMENT 3 hours credit

A study of the nature of the stress response and the practical application of stress management techniques. Major topics include: the psychophysiology of stress; the role of stress in disease; cognitive reappraisal; and relaxation training. Useful for personal growth and professional application. **Prerequisites:** Biology 215, 216. **Three hours per week.**

History

400. HISTORY OF MARYLAND 3 hours credit

A study of Maryland history and government from the Colonial period to the present. The course places special stress on the leaders, institutions and contributions made in Maryland and by Maryland to the nation. **Three hours per week.**

An intensive study of particular institutions and movements in Roman history. Emphasis on family history and social and religious trends during the early imperial period of Roman history. **Prerequisites:** HIST 101, 102. **Three hours per week.**

472. STUDIES IN CLASSICAL ARCHAEOLOGY

3 hours credit

Assorted topics and archaeological sites of the ancient Mediterranean world (Crete, Greece and Italy) will be examined. Course may be taken twice under different subtitles recorded with the registrar. **Prerequisites:** HIST 101, 102. **Three hours per week.**

474. HISTORY OF ANCIENT EGYPT

3 hours credit

An intensive study of three eras of Egyptian history: the pyramid age, the chaotic middle kingdom and New Kingdom Absolutism. Emphasis on cultural, religious and artistic contributions. **Prerequisite:** HIST 101. **Three hours per week.**

480. MUSEUM STUDIES

3 hours credit

The course is designed as a work experience which invites students to learn techniques of museology. The student will work in cooperation with various local or regional museums. The learning experience will take place under the supervision and direction of a museum curator. May be repeated once.

490. STUDIES IN HISTORY

3 hours credit

An intensive historical study of particular periods, groups, economics, and intellectual, cultural and social movements and/or institutions. This course may be taken twice under different course titles recorded with the registrar.

502. SEMINAR: COLONIAL AND REVOLUTIONARY AMERICA

3 hours credit

A study of Colonial institutions and the American Revolutionary movement. Emphasis is placed upon the study of specific topics through individual research projects. This course may be taken twice under different course subtitles recorded with the registrar. **Three hours per week.**

503. SEMINAR IN 19TH CENTURY AMERICA

3 hours credit

This seminar offers an opportunity to the student to explore in-depth 19th century American society, via themes selected by the instructor. This course may be taken twice under different course subtitles recorded with the registrar. **Three hours per week.**

504. SEMINAR IN EUROPEAN HISTORY

3 hours credit

A seminar designed to enable the student to

explore, through intensive research, basic problems in European history. The period or topics to be studied will be selected by the instructor. This course may be taken twice under different course subtitles recorded with the registrar. **Three hours per week.**

505. SEMINAR: MARYLAND HISTORY

3 hours credit

A seminar designed to acquaint students, through readings and research, with some of the major problems and developments in the history of Maryland. This course may be taken twice under different course subtitles recorded with the registrar. **Three hours per week.**

506. SEMINAR IN 20TH CENTURY AMERICA

3 hours credit

A seminar enabling the student to intensively explore specific periods and/or problems in this century through individual research. This course may be taken twice under different course subtitles recorded with the registrar. **Three hours per week.**

508. SEMINAR IN AMERICAN DIPLOMACY

3 hours credit

A seminar permitting students to investigate, through reading and research, selected problems in the history of American diplomacy. This course may be taken twice under different course subtitles recorded with the registrar. **Three hours per week.**

510. SEMINAR IN LATIN AMERICAN HISTORY

3 hours credit

An intensive study of major institutions and specific periods in Latin America through reading and research. This course may be taken twice under different course subtitles recorded with the registrar. **Three hours per week.**

512. READING SEMINAR

3 hours credit

An extensive-intensive directed readings course on a topic selected by the instructor. It is intended to be an in-depth survey of a specific topic, as well as preparation for the written and oral examinations for the M.A. **Three hours per week.**

530. DIRECTED RESEARCH

3 hours credit

Preparation of optional research project in master's degree program under departmental supervision. **Three hours per week.**

531. THESIS

3 hours credit

Mathematical Sciences

402. THEORY OF NUMBERS

3 hours credit

Basic concepts: integers, prime numbers, divisibility, congruences and residues. **Prerequisite:** MATH 201. **Three hours per week.**

406. GEOMETRIC STRUCTURES

3 hours credit

An axiomatic development of incidence, ordered incidence, affine and absolute geometries; investigation of Euclidean and non-Euclidean geometries. **Prerequisite:** MATH 201. **Three hours per week.**

413. MATHEMATICAL STATISTICS I

3 hours credit

Axioms and algebra of probability, discrete and continuous random variables and their probability distributions, multivariate distributions and limit theorems. **Prerequisite:** MATH 310. **Three hours per week.**

414. MATHEMATICAL STATISTICS II

3 hours credit

Methods of estimating, properties of estimators, hypothesis testing, linear models, least squares, analysis of variance, enumerative data and non-parametric statistics. **Prerequisite:** MATH 413. **Three hours per week.**

441. ABSTRACT ALGEBRA

3 hours credit

An introduction to the theory of groups, rings, integral domains and fields, including basic properties of polynomials. **Prerequisite:** MATH 306 or 310. **Three hours per week.**

451. ANALYSIS I

3 hours credit

Modern abstract analysis including such topics as topology of the real number system, sequences, continuity and differentiability. **Prerequisite:** MATH 310. **Three hours per week.**

465. MATHEMATICAL MODELS AND APPLICATIONS

3 hours credit

Mathematical basis for model building; examples of simple models for uncomplicated systems in biology, psychology, business and other fields, finite markov processes; models for growth processes. **Prerequisite:** MATH 306. **Three hours per week.**

471. NUMERICAL ANALYSIS

3 hours credit

Such topics as interpolation, functional approximation, numerical differentiation and integration, nonlinear equations, systems of linear equations and analysis of error. **Prerequisites:** MATH 311 and programming experience. **Three hours per week.**

480. HISTORY OF MATHEMATICS

3 hours credit

A study of the chronological development of mathematics, with emphasis on both the mathematical concepts and the principal contributors to the development of those concepts. **Prerequisite:** MATH 402, 406 or 441. **Three hours per week.**

490. SPECIAL TOPICS

3 hours credit

For the student who wishes to study in certain specialized areas such as functional analysis, multivariate statistics or artificial intelligence. This course may be taken twice under different course subtitles recorded with the registrar. **Prerequisites:** For most topics, MATH 306 and 310. **Three hours per week.**

500. FOUNDATIONS OF NUMBER THEORY

3 hours credit

Designed for teachers of arithmetic, with emphasis on the development of the real number system in Elementary Number Theory. **Prerequisite:** One course in college mathematics or consent of instructor. **Three hours per week.**

502. APPLIED STATISTICS

3 hours credit

The use of linear models in the analysis of data, starting with simple models and going to more complex models. Special attention will be given to the use and abuse of these models by researchers. **Prerequisite:** A course in statistics (MATH 151 or 114). **Three hours per week.**

506. SELECTED TOPICS

3 hours credit

Designed for students with a major in mathematics to develop topics in mathematics not included in the undergraduate program, or to extend areas previously studied. **Prerequisite:** Approval of the department.

507. SEMINAR: ALGEBRA

3 hours credit

A seminar dealing with selected topics from linear and abstract algebra. A seminar paper is required. **Prerequisite:** Approval of the department.

530. DIRECTED RESEARCH**3 hours credit**

Preparation of optional research project in Master of Education program under departmental supervision.

590. SPECIAL PROBLEMS IN MATHEMATICS**3 hours credit**

Individually designed programs including summer workshops and special seminars. Specific topic will be indicated on transcript. This course may be taken twice under different course subtitles recorded with the registrar. **Prerequisite:** Consent of instructor.

Music**400. RENAISSANCE AND BAROQUE MUSICAL STYLES****3 hours credit**

Philosophy, musical forms and styles of the period 1500-1750; study of representative vocal and instrumental music by outstanding composers of the period. **Prerequisite:** MUSC 104 or approval of department chair. **Three hours per week.**

401. MUSICAL STYLES OF THE 18TH AND 19TH CENTURIES**3 hours credit**

Philosophy, musical forms and styles of the period 1750-1900; study of representative vocal and instrumental music by outstanding composers of the period. **Prerequisite:** MUSC 104 or approval of department chair. **Three hours per week.**

403. PIANO HISTORY AND LITERATURE**3 hours credit**

A comprehensive study of the piano and its predecessors, the course traces the history of keyboard instruments, emphasizing the ways in which the development of the instruments affected keyboard literature and performance practices. This course includes familiarization with the principal keyboard composers, performers and instrument makers from earliest times to the present. **Prerequisite:** MUSC 200, 110, 104 or approval of instructor.

406. INTRODUCTION TO ELECTRONIC MUSIC**3 hours credit**

Music synthesis is approached through reading, listening, analysis and studio experience. **Prerequisite:** MUSC 112 or permission of instructor. **Three hours per week.**

408. MODERN MUSIC**3 hours credit**

Emergence of new developments from late romantic music through serial and electronic music, including influences of jazz and considering the effects of social forces and current world events. **Prerequisite:** MUSC 104 or equivalent. **Three hours per week.**

409. INTRODUCTION TO ETHNOMUSICOLOGY**3 hours credit**

The study of music of world cultures not associated with the traditional study of Western art music, with emphasis on the musics of Eastern Europe, the Near, Middle and Far East, Africa, the Pacific Islands and native America. **Prerequisites:** MUSC 104 or 110 and 200 or approval of instructor. **Three hours per week.**

410. CHURCH MUSIC**3 hours credit**

Designed for the practicing or potential church musician. A practical course dealing with all aspects of the church music program. **Prerequisite:** Approval of the instructor. **Three hours per week.**

411, 412. APPLIED MUSIC I AND II**3 hours credit**

An advanced course in performance technique using a wide variety of literature. A solo recital (alone or sharing a program with other students) encompassing music of many styles and periods is a required culmination. Students will elect one performing medium (piano, voice, organ or other instrument) and must have completed the fourth course in the sequence for that instrument as a prerequisite. Each course may be repeated for credit once. **Three hours per week and a minimum of 12 individual practice hours per week.**

416. AMERICAN MUSIC**3 hours credit**

Analysis of musical forces and styles as they reflect the nation's development and America's unique contributions to the growth of music as an art form. **Prerequisite:** MUSC 104 or equivalent. **Three hours per week.**

426. ARRANGING FOR VOICES AND INSTRUMENTS**3 hours credit**

Fundamental techniques of scoring for various acappella and accompanied voice combinations, scoring for orchestra, band and various instrumental combinations, special characteristics of each choir of instruments, range of voices, selection of

suitable literature for treatment in different ensembles, with consideration of style. **Prerequisite:** Theory IV (or concurrent registration with Theory IV). **Three hours per week.**

429. MUSIC CONCEPTS FOR EARLY CHILDHOOD**3 hours credit**

Melodic and rhythmic elements within the cognitive, physical and aural capabilities of young children (nursery school through primary grades); use of simple creative application to reinforce music concepts. **Prerequisite:** MUSC 200 or approval of instructor. **Three hours per week.**

430. MUSIC CONCEPTS FOR ELEMENTARY SCHOOL**3 hours credit**

Development of musical skills, with emphasis on part-singing, piano accompaniments, combined rhythms, conducting skills and creative application of these skills appropriate for the elementary school. **Prerequisite:** MUSC 200 or consent of the instructor. **Three hours per week.**

431. MUSIC CONCEPTS IN SECONDARY SCHOOL GENERAL MUSIC**3 hours credit**
